

## Don't forget

If your child is isolating at home, they still have access to a whole library of online reading books through Bug Club Independent.

While they are at home they can continue to read for pleasure as well as working on their comprehension skills through answering online questions.

Books can be read on a phone, on a tablet or on a PC.

## This week in school...

Despite some shrinking classes this week, we have still managed to do lots of lovely reading.

This week, **Year 1** have been reading the book 'Scooters'. We had to work out whether phrases in the book were the author's imagination or whether they were facts. We also loved reading the Smeds and Smoos this week!

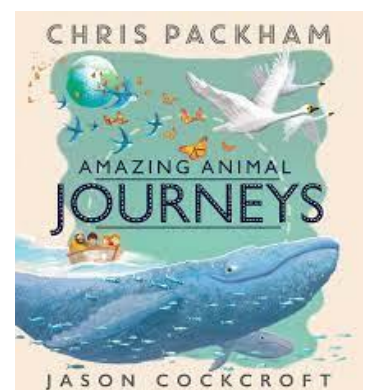

The **Nursery** children this week have enjoyed the story and song '10 in a bed'. It is an important part of our Communication and Language skills and our Literacy skills to sing songs and learn Nursery rhymes, as it is to listen to stories.

**Reception** have been reading No-Bot the Robot With No Bottom! By Paul Linnet and Sue Hendra. The children have found this hilarious and have rated it as a 5/5! They have designed and written about their own Robots, we have had no arms, no legs, no bodies, no face and no feet!

In **Year 2**, we have been reading 'Fox' as part of the English unit. We have also shared lots of Katie Morag books. **Year 3** have been looking at non-fiction books about the Romans as part of their English unit. They have also started their new class reader Tony Robinson's 'Weird World of Wonders - Romans'.

This week **Year 4** have been reading a new E book in English which is all about incredible sports such as disc golf, bossaball and even cheese rolling! We have nearly finished our class book "The Amazing Story of Adolphus Tips". There are so many cliffhangers that have kept us hooked! **Year 6** have continued delving into 'Harry Potter and the Philosopher's Stone.' This week, the famous wizard has helped us to understand sentence structure, language choice and how to write a letter. We have even created our own howlers!

**Year 5** have made a superb start to their non-chronological reports about Migrating animals. This week we looked at the introduction to 'Amazing Animal Journeys' by Chris Packham. We used lots of different online texts to collect fascinating facts about our chosen animals.

# Brand new in our school library....

Can you read all 8 books from this brilliant series and find out about all of the groundbreaking women and trailblazing men?

Thank you so much to a mystery donor who dropped off some brilliant books to top up the Year 4 class library.

If you are in Year 3, you will find this book really interesting because you have studied the Stone Age.

Do you have any spare house plants that you could donate to add to our library?

You will love these new funny adventure stories.

Whose life would you like to find out about?

Ask the grown ups at home if they can tell you anything about these people.

There is a mixture of non fiction and fiction to suit lots of different ages and stages of reading.

## What sort of books do you love to read?

If you are looking for a particular book, author or series and you can't find it in our library, let me know. We want the library to be full of books that you love to read and we will do our best to find what you are looking for and suggest similar storylines that you might enjoy.
